Please debit my credit/debit card the sum of £.....

Card Number : Security Number :

Issue Date : Expiry Date : Issue No (Switch only).....

Cardholder Name : Signature :

Important Guidelines for Completion of Application Form and Silhouette

Both the application form and the silhouette must be completed in BLOCK CAPITALS and in ink.

Please mark on the diagram with  where the microchip is implanted in the equine. Veterinary Surgeon to sign and stamp the silhouette.

Please indicate the equine's white markings by lightly hatching the full extent of the marking in the appropriate place on the diagram in red ink. Please be as accurate as possible in showing the extent of the markings. It is not sufficient simply to indicate the top edge of a white marking. Please note, in words, details of the white markings (e.g. 'white to mid-cannon' or 'white to below knee') in the boxes provided.

If the equine has no white markings, please write 'nil white' or 'no markings'. Flesh markings should be outlined and completely shaded. Take care not to obliterate whorls.

Coloured horses. Piebald horses are those with large irregular patches of black and white and the patches are well defined. Skewbald horses are those with large irregular patches of white and any other colour except black. The patches are well defined. If the horse has a coat with more than two colours it should be described as tri-coloured. Please describe the colours eg "skewbald (chestnut & white)".

Spotted horses. Please describe the base colour and the colour(s) of the spots eg "brown with white spots".

The equine's whorls (changes in the direction of hair growth) should be marked on the diagram with 'X' where appropriate in black ink. If the equine has no other distinguishing marks, please note, in words, the position of the whorls, (e.g. 'whorl mid-crest' or 'whorl at point of stifle') in the boxes provided.

Please indicate on the diagram any acquired marks such as scars with 'V' where appropriate, and describe, in words, these marks in the boxes provided.

Important Points

The passport will be stamped replacement if the equine is over 6 months of age or after its year of birth.

An Application form and/or silhouette which has not been satisfactorily completed will be returned to the equine's keeper or vet and a re-submission fee of £5.00 will be payable before the application can be processed.

Our Fast Track Service offers a 24 hour service for an additional fee of £20.00 per passport.

All passports are returned by Royal Mail unless otherwise requested and the required service paid for.

Prices correct at the time of print and are subject to change.

The Pet ID Equine horse passport is a 36 page blue riveted A5 document, to government legislation. The passport includes all registered owner's details, equine's details and a silhouette.

The passport is issued to identify the equine. Pet ID Equine makes no representation in respect of the legal ownership of the equine.

Once Pet ID Equine is in receipt of the passport application you do not have the right to cancel your request due to the uniqueness of the document. Therefore, the payment will be retained by Pet ID Equine to cover the cost of processing and issuing your application even if you no longer require the document.

Pet ID Equine Limited has issued over 180,000 Equine Passports and is one of the largest Defra Approved Horse Passport Issuing Offices.
